RE: Phelps Dodge Morenci/Chase Creek Facility

Dear Mr. Colen:

The Arizona Department of Environmental Quality Permits Hydrology Unit has compiled the enclosed water quality data from the Water Pollution Compliance database file for Phelps Dodge Morenci/Chase Creek facility. The facility's current Groundwater Quality Protection Permit requires quarterly monitoring of three monitor wells, CC-7, CC-8, and CC-14. In addition, graphs have been produced which depict groundwater concentrations of inorganics and any consistently measured metals over time.

If the Permits Hydrology Unit can be of additional service to you please contact me at (602) 207-4669.

Sincerely,

A handwritten signature in black ink, appearing to read "D. M. Anderson", is written over a horizontal line.

David M. Anderson
